OCCUPATIONAL DISEASES IN BRITISH COLUMBIA 1984 - 1988

WORKERS' COMPENSATION BOARD
OF BRITISH COLUMBIA

SEPTEMBER 1989

INTRODUCTION

This publication presents statistical information on industrial disease claims. The purpose of the publication is to describe the extent and the nature of these claims so that those involved in the prevention of industrial disease can more efficiently direct their efforts. The publication has been produced through the combined efforts of three WCB departments: Occupational Health, Industrial Hygiene and Statistical Services.

DATA BASE

This publication shows statistics on claims for industrial disease that were accepted for wage loss; it does not show statistics on claims that were accepted for medical expense but involved no time lost from work or on claims that were not accepted. The wage-loss claims are shown by the year in which the claim was accepted.

According to the Workers' Compensation Act of British Columbia[1], and the Board's Reporter Decision No. 326[2], there are two requirements to be satisfied before a claim for industrial disease is accepted. The first is that the condition is an "industrial disease", which we also refer to as occupational disease in this publication, and the second is that it has been caused by the claimant's work.

Section 1 of Workers' Compensation Act of British Columbia[1] defines industrial disease as ". . . any disease mentioned in Schedule B and any other disease which the Board by regulation or otherwise may designate or recognize as an industrial disease, and 'disease' includes disablement resulting from exposure to contamination".

Schedule B is shown as Appendix 2. It lists a series of diseases and corresponding occupations or industries. If a person has one of the diseases listed in Schedule B, and is employed in the occupation or industry corresponding to the disease, then the Board presumes that the disease was caused by the person's employment(2). Cases not falling under Schedule B are judged individually on their merit, or by the Board making an appropriate regulation(2).

Some of the tables in the publication show statistics for individual subclasses of industry. Appendix 1 is a description of the meaning of the subclass numbers.

CHANGE IN CODING PROCEDURES

Traumatic tenosynovitis cases (resulting from a blow) were classified as tenosynovitis and therefore included in this report in 1984 and from 1987 on, but have been classified as injuries and therefore not included in this report in other years.

OTHER DATA

The policy of the Board is to supply information about the claims experience for individual firms to anyone with a direct interest in the occupational health and safety at that firm. This includes members of the safety committee, the management and the union representing the workers at the firm. Requests for statistics on occupational diseases for individual firms should be sent in writing to Statistical Services, Workers' Compensation Board, 6951 Westminster Highway, Richmond, B.C., V7C 1C6.

[1] Refer to Appendix 1 for a description of the subclasses.

[2] Subclasses with less than five claims, and the federal government subclass, are not shown individually, but are included in the "OTHER" row.

3 Includes bursitis cases caused by contact with physical agents. Traumatic tenosynovitis cases (resulting from a blow) were classified as tenosynovitis and therefore included in this report in 1984 and 1987 (and will be classified as tenosynovitis in future years) but have been classified as injuries and therefore not included in this report in other years. The exposure category for these claims is "physical agents, other".

[2] Excludes bleach.

3 Includes bursitis cases caused by contact with physical agents. Traumatic tenosynovitis cases (resulting from a blow) were classified as tenosynovitis and therefore included in this report in 1984 and 1987 (and will be classified as tenosynovitis in future years) but have been classified as injuries and therefore not included in this report in other years. The exposure category for these claims is "physical agents, other".

TOTAL 1984-1988 - 74 OCCUPATIONAL CANCERS

[1] Some of the cancer claims for mesothelioma in this table are shown in Table 3 as pneumoconiosis claims arising from exposure to asbestos. (These are claims first accepted as pneumoconiosis which are also accepted subsequently for cancer.)

[2] Refer to Appendix IV for a description of the subclasses.

[3] All subclasses where there has been exposure are shown.

[1] See Appendix 1, Description of Subclasses. The category "chlorine" includes bleach; the category "cleaning compounds" excludes bleach.

2 Traumatic tenosynovitis cases (resulting from a blow) were classified as tenosynovitis and therefore included in this report in 1984 and 1987 (and will be classified as tenosynovitis in future years) but have been classified as injuries and therefore not included in this report in other years. The exposure category for these claims is "physical agents, other".

[1] See Appendix 1, Description of Subclasses. The category "chlorine" includes bleach; the category "cleaning compounds" excludes bleach.

2 Traumatic tenosynovitis cases (resulting from a blow) were classified as tenosynovitis and therefore included in this report in 1984 and 1987 (and will be classified as tenosynovitis in future years) but have been classified as injuries and therefore not included in this report in other years. The exposure category for these claims is "physical agents, other".

APPENDIX 1

CLASSES OF INDUSTRY

All industries within the scope of the Workers' Compensation Act are divided into the following general classes:

Class 1	Forest-products industries
Class 2	Silicosis
Class 4	Mining; quarrying; manufacture of sand, rock, lime, clay or cement products
Class 6	Light manufacturing, service and trade industries
Class 7	Heavy manufacturing, construction
Class 8	Power and gas utilities, communications, motor-vehicle transportation, air transportation
Class 9	Water transportation, wharf operations, fishing and fish-packing
Class 10	Canadian Pacific Limited, Canada Pacific Steamships Limited, Esquimalt and Nanaimo Railway Company, Cominco Limited, West Kootenay Power and Light Company Limited, Canadian Pacific Airlines Limited, Kootenay Engineering Company Limited
Class 12	Canadian National Railways, Air Canada, Via Rail Canada, Northern Alberta Railway Company
Class 13	The Crown in right of the Province and any permanent board of commission of the Crown in right of the Province
Class 14	Municipal corporations and agencies
Class 18	Burlington Northern Inc.
Class 38	Canada Works and Federal Government Grants

Following is a detailed listing and full description of the various industries to which the Act applies.

SUBCLASSES* OF INDUSTRY

Subclass	Description
102	Logging, Log Salvage, Tree Spacing or Tree Thinning Log Hauling Log Booming or Sorting
104	Pulp or Paper Mill
105	Sawmills Log Scaling as a Business Planing Mills Manufacturing Fence Posts and the Operation of Pole Manufacturing Plants when such operation is conducted as a separate industry Booming Ground Operations when carried on by a tugboat company or as a business in itself not allied to any other operations in the forest-products industries Kiln Drying
107	Sash and Door Factories, Moulding Manufacturing Manufacture of Flakeboard, Hardboard, Plywood or Veneer Manufacture of Laminated Beams Wooden Box Works, Manufacture of Wooden Pallets, Manufacture of Excelsior, Staves or Heads, Wooden Pails or Tubs, Wooden Pipe, Wooden Barrels or Cooperage Lumber Remanufacturing, where not part of a sawmill operation and where not elsewhere specified (N.E.S.) Wood Preserving as an Industry
109	Shingle or Shake Mills (Logging operations carried on in connection with the above classifications take the logging rate.)
203	Silicosis, Coal Mining
204	Silicosis, Metalliferous Mining
403	Gravel, Sand or Shale Pits Stone Crushing or Quarrying Lime Quarrying Clay Mining Peat Digging or Processing Lime Kilns Manufacture of Gypsum Manufacture of Cement Manufacture of Bricks Manufacture of Terracotta or Tiles Stone Cutting, Dressing or Shaping Monument Lettering or Setting Manufacture of Cement Blocks, Pre-cast Concrete Blocks or Other Cement or Concrete Products, N.E.S. Manufacture of Pre-stressed Concrete Beams
411	Asbestos Mining, Geophysical Contractors or Geological and Geophysical Service for the Mining Industry, Metal Mining (exclusive of silicosis rate), Mineral Exploration, Ore Reduction, N.E.S., Prospecting on Staked Land, Tunnelling in or for Metal Mines, Prospecting on Unstaked Land (on request) Diamond Drilling (exclusive of silicosis rate)
418	Aluminum Smelter
